

Supplier Sustainability Policy

This Supplier Sustainability Policy identifies the global standards to be followed in your business activities on behalf of Chassix. Suppliers are expected to share Chassix's commitment to these standards and abide by the following guidelines:

Business Conduct and Ethics

Chassix conducts business with integrity and in compliance with all applicable laws and regulations. A commitment to integrity is critical to how we conduct business and maintain our reputation in the communities in which we do business. Suppliers are expected to demonstrate the highest standard of integrity and ethical conduct in all business activities.

Legal Compliance

Chassix is committed to complying with all applicable legal requirements. Suppliers are expected to comply with all applicable legal requirements and prevent incidents or conditions that might result in a violation of law. All purchased materials used in manufacture of goods shall satisfy current governmental and safety constraints on restricted, toxic and hazardous materials as well as environmental, electrical and electromagnetic considerations applicable to the country of manufacture and sale.

Human Rights

Chassix is committed to recognizing human rights and labor principles throughout its global organization and supply chain. Chassix considers employees to be one of the most important resources and is committed to the treatment of all employees with dignity and respect. All suppliers are required to comply with local laws governing the employment relationship.

Child Labor

Chassix's suppliers will not use child labor. The term child refers to children under the legal age for employment in any location.

Forced Labor, Human Trafficking

Chassix believes that all employees should have the right to voluntarily elect whether to be employed by the supplier. The supplier will not use forced or involuntary labor of any kind or tolerate physically abusive disciplinary practices.

Wages and Hours, Working Conditions

Suppliers must comply with all applicable wage and hour laws, including minimum wage, overtime, maximum hour rules, meal and rest periods, and to provide legally mandated benefits. Where local industry standards exceed applicable legal requirements, suppliers are encouraged to provide wages and ensure working conditions that meet the higher local industry standards.

Coercion, Harassment and Discipline

Chassix expects its suppliers to treat their employees with dignity and respect. Suppliers are expected to have systems in place to prevent, detect, and resolve unacceptable worker treatment such as harassment, inappropriate use of discipline, discrimination, physical or mental punishment, or other forms of intimidation or abuse (e.g., physical abuse, threat of abuse, sexual or other harassment, verbal abuse, any type of corporal punishment, or other forms of mental and/or physical coercion as a form of discipline).

Discrimination

Chassix is committed to providing all employees with a professional working environment which is free from unlawful forms of discrimination and harassment. Suppliers must make all employment decisions based on the facts and individual merit. Suppliers shall not discriminate in their hiring and employment practices (e.g., pay/promotion) and must follow all employment laws.

Freedom of Association and Collective Bargaining

Suppliers must respect their employees' right to choose to join or not to join a trade union, or to have recognized employee representation in accordance with local law. Suppliers are expected to maintain constructive dialogue and negotiate in good faith with such representatives. Suppliers shall not harass, discriminate against, or otherwise penalize workers, worker representatives, or trade union members because of their interest and/or membership in, or affiliation with, a trade union, or their legitimate trade union activity, in accordance with international labor standards.

Preventing Bribery and Corruption

Chassix is committed to conducting business ethically throughout the world. Chassix prohibits suppliers from giving or promising to give anything of value to employees or representatives of foreign governments, governmental agencies, political parties, or to political candidates, for the purpose of obtaining or retaining business. Suppliers must conduct business with integrity and in full compliance with all applicable laws.

Environmental, Health & Safety

Chassix is committed to complying with all applicable environmental, health and safety legal requirements and protecting the environment. Suppliers are expected to comply with all applicable environmental, health and safety legal requirements and prevent incidents or conditions that might result in a violation of law or otherwise endanger the environment.

Suppliers must provide each employee with a safe and healthful work environment. Each supplier has responsibility for maintaining a safe and healthy workplace for all employees by following health and safety rules and practices and reporting accidents, injuries and unsafe equipment, practices or conditions.

Environmental Sustainability

Chassix adopts the definition for Sustainability as "**meeting the needs of the present without compromising the ability of future generations to meet their own needs.**" For Chassix, this means being aware of our impacts and understanding how these affect the world around us. Our mission is to reduce these impacts while increasing the profitability and longevity of our company.

Chassix expects its suppliers to support Chassix's sustainability mission by complying with all applicable environmental laws, rules and regulations while using resources wisely. Suppliers are expected to share Chassix's commitments by developing and implementing a sustainability program focused on using natural resources responsibly, reducing water usage, reducing waste generation, improving energy efficiency and reducing the carbon footprint of their operations.

Preventing the Flow of Funds to Armed Groups and Conflicts

Chassix strives to use only components with raw materials where extraction, transport, trade, processing and export are obtained from validated sources as a matter of principle, wherever practicable. We ask our suppliers to source responsibly and endeavor to understand that sourcing of their materials neither directly nor indirectly provides funding to conflicts and human rights abuses.

Implementation of Sustainability Standards in the Supply Chain

Chassix expects its suppliers and all subcontractors to abide by the requirements of this Supplier Sustainability Policy, including identifying risks within their supply chains and taking appropriate measures to address them.

Right to Audit and Ensure Compliance

Chassix reserves the right to conduct audits to ensure compliance with these requirements and also reserves the right to take appropriate measures, including discontinuing any relationship with a supplier should the supplier violate, fail to correct, or have a pattern of violating this Policy.
